SOUTHERN SWANSEA TO RESUME OPERATIONS

E. R. Higgenson, who was in town yesterday from Silver City, informs the Eureka Reporter that preparations are now under way for the resumption of work at that property of the Southern Swansea company. As the name indicates, this company's holdings are to the south of the old Swansea mine, and the officials believe that they will be able to open up the southern extension of the Swansea vein.

few months ago there was a small stringer of ore in sight upon the 140-foot level, where the vein was cut. This stringer was about six inches in width and carried values in lead, silver and gold, and might possibly lead to something much more important even at that depth.

Mr. Higgenson, as well as others who are familiar with the property, are of the opinion that with greater depth the Southern Swansea will encounter a nice At the time work was suspended a Southern Swansea will encounter a nice

CEDAR-TALISMAN GETTING READY DEAL IS CLOSED

Fine Body of Galena and Car- Fine Properties Go to New Operations in American Fork Company-Owners in Old Get Share for Share.

The deal involving the consolidation of

The consolidation of these two companies removes all fear of litigation that previously seemed imminent as a result of disputes concerning the ownership of the ore bodies developed practically on the lines dividing separate possessions of the old companies. It rounds the property out to a solid block of ground embracing somewhere in the neighborhood of 255 acres and gives the new company an estate that should, now that all bickerings and threafs of trouble are at an end, make one of the most valuable mines in the Beaver county mineral zone. On the Cedar a shaft has been sunk 500 feet and the ore bodies have been tapped at various points in the workings. The shaft is equipped with a fine steam hoisting works and a compressor, together with all the necessary surface improvements, including buildings of various descriptions.

Ore has also been developed on the control of the contro

rious descriptions.

Ore has also been developed on the Talisman side of the fence, and the purpose of the management will be to open up all the mineral-bearing ground as expeditiously as possible. Work will begin as soon as arrangements are perfected, and in the near future the stock of the new company will be listed on the exchange.

COPPER STOCKS IN BOSTON AND NEW YORK

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York carb tass at the contract of the c

and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from whom it is secured for use in this department of The Herald:

Boston, Jan. 25.—Judge Hunt's decision in the case of the Washoe Smelter should be a big bull card on the Butte stocks. On the announcement of the decision, under the deadership of Amalgamated Copper, all the local copper shares showed a rally of about a point, but the time was too short for the real effect of the decision to be felt. The first hour tomorrow will determine whether the public can be interested in stocks at present prices. If no buying appears, then the market will certainly decline further. One house with Pittsburg connections sold 1,000 North Butte today, and New York houses were sellers of Butte Coalition. Offerings of Greene Cananea were light and scattered, bids from New York making the prices strong all day. We see no reason yet for taking the bull position on the market, and advise sales on all rallies.

Boston, Jan. 25.—Judge Hunt's decision which carried enough good galena to make them anxious to return as soon as possible and continue the development work. This property is one of the best located in the canyon, and the company is well financed and prepared to do some extensive development work the coming season.

The Pacific Mining company is still making good progress at the Blue Rock claim. The ore is being blocked out and part of it is being sacked. It is reported that by the middle of next month. Just before closing, the miners encountered a three-foot vein of material which carried enough good galena to make them anxious to return as soon as possible and continue the development work the canyon, and the company is well financed and prepared to do some extensive development work the canyon, and the company is still making good progress at the Blue Rock claim. The ore is being blocked out and profess the stockholders with.

The Mountain Dell has the ore and which carried

FOR BIG THINGS

District Will Add New Shippers Next Spring.

American Fork, Jan. 25.-That American Manager Charles Morrison yesterday afternoon not a little excitement has been created as-a result of a strike that has just been made in the North America company's property, near Minersville, in Beaver county.

On the 160-foot level of the new shaft, the shaft that was completed to that depth about the first of the year, a fine body of galena and lead carbonate or has been encountered in the drift that was started in the verified in the vening was last in camp.

'I am not in possession of particulars,'' said Mr. Morrison during the afternoon, but I judge from the report that come to me that the strike is a most important one. I have been certain all all soil grows to me that the strike is a most important one. I have been certain all all soil grows to me that the strike is a most important one in the that the strike is a most important one is have at least been realized to the new on a share for share absis, the Cedar company being awarded 330-good stuff from the start. I shall go down to the property and when I return to the property and when I return the property and when I return the short of rich ore, as we had some the me employed at the property are not depth. I place every confidence in the message that has come to me, because the men employed at the property are not educated in the same companies of the old companies and the Tallsman 300.000. The consolidation of the set wo company being awarded 330-good shares go into the treasure it is an own to the property and when I return to the new on a share for share absis, the Cedar company being awarded 330-good shares go into the treasure it is an own to the property and when I return to the new company, the colorated the property and the relation of the work of the county, and that there will be a number of shippers added to the list is now the properties of the county, and that there will be a number of shippers added to the list is now the properties of the county, and that there will be a number of shippers added to the list is now the properties of the Fork canyon is preparing to inaugurate

ty feet lower down the hill from where the Wild Boys had extracted about \$40,-600 worth of ore the season prior to this. After running about 200 feet a crossout was driven for thirty-five feet, when the full face of the drift opened up into ore. From reports the vein is about seven feet thick and is of much better grade than the ore usually taken from this mine. This season promises to be a profitable one for the leasers of this property.

Leasers of the Miller Hill company's property on Miller hill have made an important strike. They have encountered the largest ore body in the history of the mine. Taylor & Brown of Salt Lake have the lease on this property, and have already taken a good many carloads of ore from it. They took the lease on this property at the expiration of the Tyng Bros.' lease last July and have done much development work there since, and have put over 100,000 feet of lumber into buildings at the mine.

The strike in the Dutchman, which adjoins the Whirlwind property, has caused the stock of the Whirlwind to make an advance of about 2c in value the past two or three days. Superintendent Pinckley of that mine was in town yesterday and the day before quietly buying up all the Whirlwind stock that he could at from 7c to 9c per share. While he states that the mine is leoking good, he will not admit that they have any ore, or that conditions are such as to cause any excite-

the mine is looking good, he will not admit that they have any ore, or that conditions are such as to cause any excitement. However, his action in picking up the stock looks as though he were expecting some important developments to take place at the mine before long.

The Mary Ellen Mining company, in its monthly report just sent out to the stockholders, gives some good reports of the doings at that property. No work is being done just at present on account of the danger of snowslides and not wishing to take any chances of getting the miners caught. They expect to be working again full blast by the middle of next month. Just before closing, the miners encountered a three-foot yeln of material which carried enough good galena to make

Mazuma, Nev., Jan. 24.—Another cleanup has been made on Mazuma Hills ore in the mill of the company, and it proved the best run that has yet been made through the mill. Higher values have been returned from previous shipments, or, rather, from fractions of them, but a conservative estimate of this run makes an average of \$160 a ton. There were in all 125 tons put through, and the result is close to \$20,000.

Another run is now being made on ore from the Reagan lease, the quality of which is about the same as that of the Mazuma Hills. The Reagan lease is on the ground of the Mazuma Hills was completed, there were ten carloads of ore shipped to the smelter. The returns from these went from \$200 to \$1,000 a ton. These were not estimates, not assay returns, but results which came back to the district in the actual coln of the realm. Since the mill has been in operation, there has not been any ore shipped from the district. There have been since that time two mills running, for the Kindergarten mill is older than that of the Mazuma Hills. Now there are three mills in operation, the fourth one under construction Sales Open High Low Close.

1,400 5½ 5¾ 5½ 5½ 5½
200 44½ 447% 44½ 447%
4,600 44½ 46% 44½ 45%

(ew York Curb.

Two limits and a fifth soon to be started.

There is nothing being shipped from the district but gold and silver bullion, and in the limits of the Mazuma mili is older than that of the Maz

district but gold and silver bullion, and in all probability there will never be another shipment to the smelters. In the Kindergarten mill there has not been anything doing for a few days past for the reason that the pump broke down. This will be remedied in a few days, when there will be another run on Fairview ore, following which there will be another run on the rich ore from the Wihuja lease on the Therien mine. Then the Harris lease of the Seven Troughs Florence company will be ready with its initial shipment.

Metal Market. Silver, 52c per ounce. Copper (cathodes), 13%c per pound. Lead, \$4.20 per 100 pounds.

Mining Notes. Two carloads of ore from Utah mines and one from Nevada were released from the Pioneer sampler yesterday morning. There were released from the Taylor & Brunton sampling works yesterday four carloads of ore from Utah mines and one from Nevada.

MINING STOCK EXCHANGE.

Week Opens to Lively Trading in

Quite a Number of Issues. There was an enthusiastic ring to the lively business transacted on the mining stock exchange yesterday and in most instances prices showed an improvement over last week's close. While this market has its dull spells and a consequent wavering of prices, the recovery is always quick and often pronounced. The undertone is stronger now than it was a week ago and the stocks participating in the business cover such a wide range that it seems hardly fair to say, because stocks that are liveliest one day are dullest another, that there is danger of a slump. As a matter of fact, there would be the liveliest kind of a boom in local stocks if the east would spruce up a little and get down to business. The east, it must not be forgotten, promised all kinds of stock and industrial booms if Taft were elected, and as that has happened, it ought to trot out the boom instead of the pessimistic dope it is now spreading over the country. There was an enthusiastic ring to the

During the two regular and open board calls a total of 222,907 shares of stock, with a selling value of \$70,491.52, changed hands. Following is the list of final quotations and record of the provided withing the day.

INVESTIGATIONS IN SILVER KING COALITION .0814

lon Spiro, of the Silver King Consolidated company, leaves for the Park this morning to again take up the work of examing to again take up the work of examining and surveying workings of the Silver King Coalition company having a bearing on the big suit with which readers of The Herald are now familiar. In addition to making surveys, etc., in the territory jointly owned by the two companies, it is the purpose of Spiro to take crews of men to the mine and put them to work cleaning out workings that have caved and in which it is now impossible to make the examinations and surveys permitted through the order of the federal court. The defendant company's officers were notified by Manager Spiro that he desired to do the work mentioned, and he was told to go ahead. Black Con., 500 at 38c Colorado, 100 at \$3.02½. Col. Con., 100 at \$1.37½. Crown Point, 1,500 at 19c; 100 at 19½c. desired to do the work mentioned, and he was told to go ahead.

A recent order of the court directed the Silver King Coalition company to appear and answer the complaint filed against it by the Silver King Consolidated on Monday, Feb. 1. Unless some hitch in the proceedings occurs at that time, the case will be tried. This suit is one in equity, in which plaintiff seeks an accounting for ores alleged to have been mined in claims, the ownership of which is divided between the two companies. Since getbetween the two companies. Since get-ting an order from the court to examine and survey the portions of the big mine

OF A Month

All Examinations Free This Week.

By this free examination you will learn what your trouble really is, and how you can be cured. Discourt and obscure cases especially invited to call and be examined free. You will be under no obligation to take treatment or pay a cent. All are invited.

MEN-A SPECIAL DEPARTMENT FOR-MEN

Drs. Shores maintain a Special Private Department for the benefit of men—who through misfortune, indiscretions or excesses need the services of ABSO-LUTELY RELIABLE AND EXPERIENCED SPECIALISTS. We treat all forms of Contracted disorders, Specific Blood Poison, Prostate troubles, Varioccels, Weaknesses and Loss of Manhood. The necessity of this Department, where unfortunate sufferers may come with the assurance of honest dealings and expert treatment—is made plain by the presence in the city of various "Fake Medical Companies" and "Quack Institutes." where chaap hired Doctors and Ignorant quacks endanger the health ead rob the affilicted for worthless and often dangerous treatment.

For 17 years Drs. Shores have been known as STRICTLY RELIABLE SPECIALISTS. They do business under their own names, and ofter you their Expert services on practically your own terms—either mail weekly or monthly payments as the cure progresses or you can arrange to PAY WHEN CURBD.

to PAY WHEN CURED.

DRS. SHORES' PROSTATIC TREATMENT A REAL DISCOVERY.

Drs. Shores long since discovered that nearly all cases of so-called "Weakness" in men was due to enlargement or inflammation of the prostate gland.

Drs. Shores' treatment for this trouble is original and exclusive—it is a LO-CAI, treatment—and cures where other methods entirely fail. You can have a practical demonstration of this wonderful treatment FREE and see for yourself HOW it cures, and why other treatments cannot cure. Consultation and Advice free and confidential for all diseases. Call or Write. All Medicines free. Home Treatment Cures. Write for Free Symptom List if you cannot call.

OFFICE HOURS: 9 a. m. to 5 p. m. Evenings, 7 to 8. Sundays and holidays, 10 a. m. to 12. Consultation and examination free.

Drs. Shores & Shores, Expert Specialists,

in which it is alleged ores have been mined and no accounting made to plaintiff, it has been found that immense amounts of ore have been treated, many times as much as originally complained of. The full extent of these workings, however, has not yet been determined, and it is for the purpose of further carrying on the investigations that Solon Spiro and his associates are now going into the mine again. into the mine again

OFFICERS FOR STOCK **EXCHANGE ARE CHOSEN**

The new board of governors of the Salt Lake Stock & Mining exchange met yes-terday afternoon and selected officers for terday afternoon and selected officers for the coming year and. as is usual, named chairmen of the various working committees of the exchange, leaving them to fill the committees themselves. At the same time, W. J. Browning was chosen as trustee for three years, to succeed himself, while James A. Shorten was again named as secretary of the exchange, and G. P. Norton treasurer.

James A. Pollock was again named as president of the exchange, with W. J. Browning, W. H. Child and W. D. Nebeker as first, second and third vice presidents, respectively. The chairmen of the working committees are: Membership, W. H. Tibbals; listing, J. L. Hamilton; arbi-
